## Strategy developments INTERNATIONALIZATION OF CURRICULUM – Mykolas Romeris University case

1990-2004  
2006-2010

Intensive development of international relations : setting up bilateral agreements, visits, conferences, MoU signings

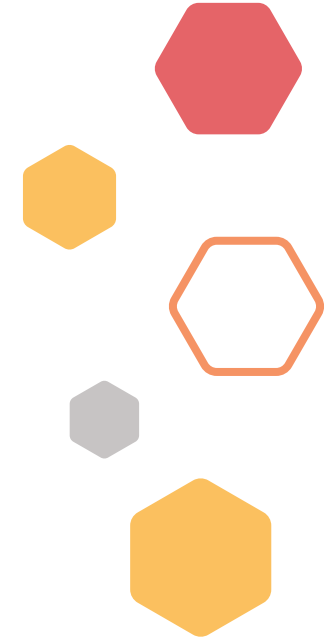

- Focus on outgoing mobility (huge demand, severe competition)
- Very few and occasional international students (primarily for exchange)
- Developments of First ever joint programmes in Lithuania - in 2006 (International law) 2008 (COSOPO)

2010-2020  
Modified  
2016-2021

Strategy – All Master programmes – joint. Partly because of EHEA focus to joint degrees. JSP development support nationally (8 projects) - developed new JSP (not all survived). Focus shift to international degree-seeking students (from 3 in 2010 to 300 in 2015 and further increase at a slower pace) 2013 – 2017 partnership with Middlesex university – validated (DD) programmes (terminated in 2016 (last graduate in 2018) From 2015 – shift from joint to double degree arrangements as more sustainable. Focus on partnership with Ukrainian universities 2020 - EMJMD

2021-2023

Quality first! Active partnerships and networks (for sustainable JSP and DD) Focus on research projects and outputs which strengthen academic programmes International degree seeking students with rigorous selection and integration of international students (talent retention) Sustainable internationalization (with focus on balanced and diverse international student body combined of exchange and degree seeking students) Internationalization at home and measures to facilitate outgoing mobility

## Challenges

- How to finance the development (how long does it take? How is it registered/accredited?)
  - How to finance the implementation?
  - How to enroll students (from day 1 in all universities or from the start of mobility)?
  - How many students?
  - How to finance student mobility?
  - How to not to give up?...
- 

Co-funded by the  
Erasmus+ Programme  
of the European Union

## Suggestions/ Tips

- Start from the Aims of the Programme (Learning outcomes) – will value be added from the jointness (must be clearly defined for students)
  - complementary and homogenous curricula – maybe more optional/alternative courses (which have similar learning outcomes)
  - Mobility scheme should be developed BEFORE the start of the programme and clear for students
  - Trust in partners, have Institutional support
  - Plan the financial support possibilities for mobility!!!
