Internationalization of Education

- Global Village is not a dream now-Internet, social network, IoT
- Integration of knowledge from diverse society is Essential
- Internationalization leads to better education
- Improved academic quality
- Internationally oriented students, staff- liberal, broad-minded, more accommodative
- Brain gain

ERASMUS/ERASMUS+ Programme

- World's largest university student exchange programme
- Since long time- more than 35 years
- Most Successful
- Largest Forum: International Mobility Programme under the framework program of 28 European Union countries
- Long, versatile experienced

One Degree Multiple Countries-Innovative Idea

- Initially I was confused
- Education is not just university learning
- People, culture, practices are sometimes more important than just studying book
- People are the most precious, valuable assets and resource in the world
- Knowledge and experience sharing with people are very important for human development
- ERASMUS here playing a very innovative role here
- Experience from many graduates proved this in Bangladesh

Should it Be One way?

- We also have some good
- We can transfer our knowledge, experience
- We can get closer than ever before
- We can share our good wish and love

How can we cooperate and love EU more?

- We need your suggestions
- You should be free to talk
- We are always ready for heartiest love and cooperation
- Always Most welcome
